

RYAN BERKE

Tampa, FL | berke.pro

SUMMARY

Support engineer with direct experience in cloud infrastructure, containerization, and developer tooling. Background spans AWS, Azure, Docker, Kubernetes, and Linux across SaaS environments. Confident working alongside engineering teams to debug complex, multi-environment issues. Looking to move into DevOps, Platform Engineering, and/or Cloud/Solutions Architecture.

CERTIFICATIONS

- ◆ AWS Solutions Architect – Associate Mar 2026
- ◆ Microsoft Azure Administrator – Associate Jul 2026

SKILLS

- ◆ **Cloud & Infrastructure:** AWS, Azure, Snowflake, Docker, Kubernetes, Linux, Microsoft Intune, Microsoft Entra
- ◆ **Developer Tools:** LocalStack, Git, GitHub Actions, Terraform, boto3, Bash, YAML, JSON
- ◆ **AI & Automation:** Claude API, OpenRouter, Harness Optimization, MCP, AI-assisted workflow automation
- ◆ **Security & Compliance:** Microsoft Defender XDR, NIST, ISO 27001, HHS 405(d)
- ◆ **Programming:** Python, JavaScript, HTML/CSS, Lua, Go
- ◆ **Other:** Windows Administration, Active Directory, Apple Business Manager, NinjaRMM, Verkada

EXPERIENCE

LocalStack | Remote

L2 Support Engineer

Sep 2026 – Present

- ◆ Handle complex escalations from L1 and work directly with engineers to resolve bugs and parity issues
- ◆ Collaborate with engineering and product teams to escalate and resolve complex infrastructure issues
- ◆ Engage with customers and prospects in the Americas time zone to debug intricate environments with LocalStack
- ◆ Develop an AI support tool to redact PII, sandbox agents, and execute environment reproductions autonomously
- ◆ Redesign ticket triaging process for automated triaging and assignment of tickets across the team

L1 Support Engineer

Mar 2025 – Sep 2026

- ◆ Triage, reproduce, and debug customer issues across AWS and LocalStack environments spanning container orchestration, networking, and SDK integrations
- ◆ Support GTM efforts by handling operational questions from prospective customers during evaluation
- ◆ Manage subscription and licensing workflows for customer accounts
- ◆ Redesigned customer support chatflows to capture diagnostic information upfront and provide AI assisted troubleshooting

Big Bend Hospice | Tallahassee, FL

IT Helpdesk Technician I

Feb 2024 – Mar 2025

- ◆ Administered Active Directory and Azure AD user/group policies for endpoint and identity management
- ◆ Deployed and managed company devices including Windows Autopilot enrollment and iOS distribution to align with HIPAA and clinical use
- ◆ Participated in 24/7 biweekly on-call rotation for critical support coverage
- ◆ Maintained device inventory and ticketing workflows across the organization
- ◆ Executed migration from on-premises AD to cloud-only Azure AD; deprecated domain controllers resulting in \$50,000 annual savings
- ◆ Audited and restructured Microsoft 365 licensing across employee roles, saving \$7,000 annually

KD Process | Tallahassee, FL

Office Assistant

May 2021 – Feb 2024

- ◆ Coordinate service of process locally and nationally via email and phone
- ◆ Dispatch legal documents to servers and provide status updates to clients daily
- ◆ Assist client inquiries with evictions, corporate filings, apostilles, and foreclosure sales
- ◆ Research and implement a web-based client portal to display invoices and affidavits in real-time
- ◆ Record payments and handle all accounts payable inquiries via Excel spreadsheets

EDUCATION

Florida State University | Tallahassee, FL

May 2023

- ◆ Bachelor of Science in Psychology
- ◆ Minor in General Business

VOLUNTEER

End Overdose, Florida State University Chapter Founder & Volunteer

Apr 2022 – Present

- ◆ Founded the university chapter of a nationally recognized non-profit with 60+ chapters nationwide
- ◆ Served as chapter President and established campus presence
- ◆ Educated & trained 8,000+ individuals on opioid overdose response across state events
